

**Conservative Party of Canada
National Policy Committee
Board of Directors Approval of Policy Submission to Ideas Lab**

The NPC does not necessarily require a copy of the entire minutes of your Board meeting as they may contain confidential information. For each submission your EDA makes to Ideas Lab, you may use the following template which shows the information that we require. **If your EDA board wants to submit the entire minutes, and they include all the information required below, you do not need to fill out and submit this separate template.**
